

ISRAEL'S UNRECOGNIZED CAPITAL

By Michael Kuttner

Honest Reporting Down Under has just released its latest assessment on the media down under.

Yarden Frankel reports that the New Zealand Broadcasting Complaints Authority has upheld a complaint lodged by the Wellington Palestine Group against Television NZ for implying that East Jerusalem is part of Israel. Back in October while Jews were being stabbed by Palestinian Arabs it was reported that a 70 year old Jewish woman was stabbed near Damascus Gate in the Old City. Video footage showed the assailant being shot with the caption "Jerusalem" as the Damascus Gate site was seen in the background.

The Wellington Palestine Group protested that this implied that the Old City was actually part of Israel (and its Capital). The Complaints Authority has now upheld their complaint.

This should not come as any surprise because the New Zealand Government also does not recognize either any part of Jerusalem as the Capital of the Jewish State or apparently the legitimacy of the Jewish connection to the Old City which includes the Western Wall and Temple Mount.
